From Principal's Desk

Assalamu'alaikum Wr. Wb.

In 2015-2016 Academic Year, Nizamia Andalusia School begin a new chapter of our school's history.

Nizamia Andalusia School is proudly present a Middle School as our new family member.

United as one school community, we take a journey requiring deep commitment to academic achievement and social growth. With a wide range of

academic offerings, social programs, and events.

In this newsletter, we will provide you related information regarding our Middle School.

Middle school is an exciting time in a child's life. Although this time is filled with learning, fun, and boundless possibility it can also prove challenging for both parents and children. The good news is Nizamia Andalusia Middle School will be your partner during this time. We, like you, want our child to be successful, and happy.

Through open lines of communication this can be

achieved. We are all on this journey together and I am confident that if we all remain focused on our shared goal, we will have a successful year.

Last but not least, I would like to express my highest gratitude to you for your unceasingly support to the development of our beloved school, Nizamia Andalusia.

May Allah reward you for your kindness.

Wassalamu'alaikum Wr.Wb.

Sincerely,

Zahra Fajardini, M.Pd

faith (Iman), Islam and Ihsan in shaping the competence character of students as citizens of the world without leaving the sense of nationalism.

Goals

Education in Middle School provides abilities (competencies) as an extension and improvement of knowledge and skills acquired in elementary school (SD) to develop student's life both as an individual, community

member and citizen in accordance with the current development. It prepares students to live in a society and follow further education.

Nizamia Andalusia Middle School instilling Islamic values based on

Curriculum Area

To ensure the school quality, Nizamia Andalusia Middle School is bridging cooperation with Cambridge ID Center 223. The MoU signing between both parties has been conducted on 27 April 2015.

The cooperation includes national and Cambridge curriculum integration training, intensive mentoring of pretest and test checkpoint, and content and language integrated learning.

The MoU also covers teacher mentoring, classroom observation and quality control, academic pedagogy and strategic training. The Cambridge Center 223 will also facilitating us to create sister school partnership with school in another countries like Turk, Malaysia, Australia, Singapore, etc.

CAMBRIDGE
International Examinations

Students' Orientation

Beginning middle school requires students to make many great changes and adjustments, both socially and academically. Therefore, Nizamia Andalusia Middle School has "Students' Orientation Days" program for the new students each year. The orientation day for our "middle schoolers" lasts for 5 days (student's first week at school).

During the orientation days, students are invited to know further about their whole new level of education. NAMS (Nizamia Andalusia Middle School) are having a lot of fun ways to introduce the new life of middle school to the kids.

We also have some sort of projects for the students during the orientation days and an exhibition for them on the last day of orientation, the exhibition serves as a media for students to show what have they done during orientation days to their parents.

Another featured program of NAMS orientation days is "Kindness Campaign". The project main goal is to make people happy by helping them. The students were given a "Kindness Card" which functioned as a report for their kind activity. They are expected to help (min) 5 people a day. The campaign also helps the students interact with their new environment and know people around them better.

Further, Nizamia Andalusia Middle School, together with MQ (Manajemen Qalbu) Daarut Tauhid also has a basic leadership training (LDK-Latihan Dasar Kepemimpinan) for the new students. This training is a program for students in order to facilitate them to achieve more in their life by preparing themselves optimally, sharpen their skills and increase their mentality and spiritual quality.

Intra-Curricular

Intra-curricular programs for the 'middle schoolers' are "Fun with Fashion and Craft" and Futsal.

"Fun with Fashion and Craft" main goal is to stimulate the students' creativity. During the intra-curricular time, the students will learn 'how to create' something new from things around them. They will be taught how to sew, cut, making design, reuse things, etc.

Futsal activities also available for those who found their passion in this sport.

Beside giving additional skills to the students, intra-curricular activities also functions as relaxing media for the students during their weekdays at school.

Business Studies

Business Studies is one of the enrichment subjects in Middle School. Students will learn how to run a small business and set their business goals. The studies also aimed to stimulate the students' entrepreneurship skills .

Our first batch of NAMS has run small business by selling food and beverages during school special events. They save the collected profit to make their dream of having winter camp in Korea come true.

Library Internship Program

Nizamia Andalusia Middle School offers a number of paid internship program in our Library.

Internships are offered throughout the year. Interns will have the opportunity to work under the direct supervision of an experienced library staff, to expand their knowledge of the library world, while at the same time develop their skills and experience. Their work is focused on improving the library database and helping their juniors and friends in the library.

The internship program will take time during enrichment hours, thus it won't interrupt their learning hours at school.

Gambang Kromong

Gambang Kromong is a traditional orchestra of Betawi people which is a blend of gamelan, Western music and Chinese-style pentatonic base tones. Gambang Kromong is closely associated with the Chinese Betawi community. It was popular in the 1930s.

This unique orchestral instruments consists of: gambang kayu (a xylophone-like instrument), kromong (a set of 5 toned bonang), two Chinese rebab-like instruments called *ohyan* and *gihyan* with its resonator made out of a small coconut shell, a diatonic pitched flute that is blown crosswise, kenong and gendang drums.

Western instruments such as trumpets, guitars, violins, and saxophones may also be included. It is chosen to build pride towards the nation, and nationalism in our new Middle School.

IT Based Learning

To support the school's "Paperless Campaign", all middle school students are required to bring laptop during school hours. School also provides wifi access and supporting facilities to ensure the learning activities running well. Teachers have special authority to give consequence to student who break the laptop usage rules.
